

High School Advanced Academy

Don Eddy Basketball

The Advanced Training Academy is designed for high school players who have an existing basketball foundation, and are currently playing at the HS level at school or in competitive club teams. We teach the 'next level' of basketball training above and beyond traditional summer camps and the regular academy experience, giving the player all the tools necessary to be successful. All advanced academies are for boys and girls ages 13-18 looking to significantly improve their offensive and defensive form, footwork, & principles. Academy curriculums cover all facets of shooting, 1on1 Attack moves from the pivot, 1on1 attack moves from the dribble, post moves, creating scoring space, offensive & defensive rebounding, away from ball movement and angle improvements, and much, much more! Academies are high paced and **demanding**.
